- (3) Where, having considered the matter in accordance with *subsection (2)*, the planning authority considers that a proposed variation to a development plan or a material alteration to a proposed variation would necessitate amendment of a relevant area plan for the time being in force, it shall include in any notice under *subsection (7) of section 58*—

- (iv) The following provisions of this section apply where the competent authority, in considering the application, forms the opinion that the development—
- (I) contains a proposal requiring the assessment for the need for a noise-related action, or
 - (II) indicates that a new operating restriction may be required.
- (b) Subsections (1) to (3) of section 9 of the Act of 2019 shall, with all necessary modifications, apply to the performance by the competent authority of its functions under this section.

- (a) any aspect of the development relating to noise that may arise in the operation of the development if it is carried out (including any such aspect relating to appropriate assessment or environmental impact assessment);

- (b) any noise problem that would arise from the carrying out of the development as proposed, taking account of any noise mitigation measures or operating restrictions (if any), or any combination thereof, proposed in the application and any further information subsequently sought by the relevant authority from the applicant in relation to those matters and given by the applicant to the planning authority and the competent authority;
- (c) where a noise problem would arise from the carrying out of the development as proposed—
 - (i) any information on the application of the Balanced Approach to the consideration of the inclusion of noise mitigation measures or operating restrictions (if any), or any combination thereof, in the application and any further information subsequently sought under *paragraph (b)* by the relevant authority from the applicant in relation to those matters and given by the applicant to the planning authority and the competent authority,

(i) is of special architectural, historical, archaeological, artistic, cultural, scientific, social or technical interest or value, or

(ii) contributes to the appreciation of protected structures,

and

(b) it is necessary to do so for the preservation of the character of the place,

it shall, taking account of building lines and heights, include an objective in the development plan to preserve the character of the place.

(2) Where a development plan includes an objective referred to in *subsection (1)*, any development plan that replaces the first-mentioned development plan shall, subject to any variation thereof under *section 58*, also include that objective.

(3) The Minister may prescribe particulars relating to an architectural conservation area that shall be included by a planning authority in the objective referred to in *subsection (1)*.

- (9) Where—
 - (a) a recommendation is made to a planning authority at any time between the day that is one year from the day on which the planning authority publishes a notice of an intention to review a development plan under *section 54* and the day on which a new development plan is made on foot of that notice under *section 55*, and

- as the case may be.
- (b) It shall be a defence to proceedings under *section 350* for the defendant to show that he or she took all reasonable steps to secure compliance with the enforcement notice.
- (8) A prosecution under this Part shall not be stayed or adjourned by reason of an application for permission or an application for a declaration under *section 10* in relation to the development concerned unless the court is satisfied that special circumstances (which shall be stated in the order) exist to warrant such stay or adjournment.

 - (i) the enforcement area of the planning authority designated in accordance with *paragraph (a)*, and
 - (ii) the enforcement areas of such other planning authorities as are specified in the order,

to be a designated region for the purposes of this section, and

- (c) designate classes of development (in this section a class so designated is referred to as a “designated class of development”) for the purposes of this section,

if he or she is of the opinion that by reason of the likely size, nature, or effect on the surroundings, of development belonging to that class, it is appropriate that the functions under this Part of each planning authority whose enforcement area constitutes part of the designated region be performed, in relation to development of that class, by the planning authority referred to in *paragraph (a)*.

- (2) The functions under this Part of each planning authority whose enforcement area forms part of a designated region shall, in addition to being performable by the planning authority for the enforcement area concerned, be performable by the regional enforcement authority in relation to development or proposed development belonging to a designated class of development in that designated region.
- (3) (a) A planning complaint may be made to a regional enforcement authority in respect of development or proposed development belonging to a designated class of development that is situated or proposed to be situated (in whole or in part) in the designated region in respect of which it is the regional enforcement authority.
- (b) A regional enforcement authority that receives a planning complaint in respect of development or proposed development belonging to a designated class of development shall notify any planning authority (other than the regional enforcement authority) within whose functional area the development or proposed development is situated or proposed to be situated of the receipt by the regional enforcement authority of that planning complaint.

- (i) pending immediately before the intervention of the regional enforcement authority, and

(ii) brought by a planning authority whose enforcement area is part of the designated region in respect of which the regional enforcement authority is designated under this section,

shall be continued, with the substitution in the proceedings of the regional enforcement authority for the planning authority.

- (b) The discontinuance (in whole or in part) of any proceedings (including enforcement action) under this Part in relation to development or proposed development belonging to a designated class of development by a regional enforcement authority following the intervention of the regional enforcement authority shall not operate to prevent the regional enforcement authority from subsequently commencing proceedings (including enforcement action) under this Part in relation to that development or proposed development.
- (c) The discontinuance (in whole or in part) of any proceedings (including enforcement action) under this Part in relation to development or proposed development belonging to a designated class of development by a planning authority other than the regional enforcement authority shall not operate to prevent the regional enforcement authority from subsequently commencing proceedings (including enforcement action) under this Part in relation to that development or proposed development.
- (d) In this subsection, “intervention” means, in relation to proceedings (including enforcement action) under this Part, the notification in writing of a planning authority by a regional enforcement authority that the regional enforcement authority will prosecute those proceedings in substitution for the planning authority.
- (5) A regional enforcement authority may perform functions (including the bringing and prosecution of proceedings for an offence and the bringing of enforcement action) under this Part in relation to a designated class of development notwithstanding that it has not received a complaint or notification referred to in *subsection (3)*.
- (6) Where development or proposed development belonging to a designated class of development is situated, or carried out, or proposed to be situated or carried out, in more than one designated region, the functions conferred on a regional enforcement authority in accordance with this section shall be performable by one such regional enforcement authority, provided that the other regional enforcement authority or regional enforcement authorities, as the case may be, concerned has given its, or have given their, consent thereto.
- (7) Where the regional enforcement authority performs functions in accordance with this section in relation to development or proposed development belonging to a designated class of development carried out wholly or partly in the enforcement area or enforcement areas of one or more than one planning authority—
- (a) that planning authority or each such planning authority, as the case may be, shall provide all such assistance and information to the regional enforcement authority, as it may reasonably require for the purposes of the performance of its functions in accordance with this section,

- (b) the regional enforcement authority shall—
- (i) keep that planning authority or each such planning authority, as the case may be, informed of progress in relation to the matter concerned, and
 - (ii) upon the conclusion of the matter or at such other time as may be prescribed, prepare, and submit to that planning authority or each such planning authority, as the case may be, a report (which shall contain such information as may be prescribed) in relation to the matter,
- and
- (c) it shall be the duty of that planning authority or each such planning authority, as the case may be, to enter in the register details of the matter in so far as it relates to its enforcement area.

Service of documents

- 396.** (1) An order, notice, warning letter or other document or information that is required or authorised to be served on a person by or under this Act shall be in writing, addressed to him or her and served on him or her in one or more than one of the following ways:
- (a) by delivering it to that person;

- (d) by sending it by post in a prepaid registered letter addressed to that person at the address at which he or she ordinarily resides or any alternative contact address provided by or on behalf of him or her;
- (e) where service in accordance with *paragraph (d)* is unsuccessful and the person serving the order, notice, warning letter or other document or information is satisfied that the person to be served is residing at or in occupation of the address to which the prepaid registered letter was sent, by sending it by post in a prepaid ordinary letter addressed to that person at that address;
- (f) where the address at which that person ordinarily resides cannot be ascertained by reasonable inquiry and the order, notice, warning letter or other document or information is required or authorised to be served in respect of any land or

- structure, by delivering it to a person over the age of 16 years resident or employed on the land or structure or by affixing it in a conspicuous place on or near the land or structure;
- (g) in the case of an enforcement notice (within the meaning of *Part II*), by delivering it to a person over the age of 16 years who is employed, or otherwise engaged, in connection with the carrying out of the development to which the notice relates, or by affixing it in a conspicuous place on the land or structure concerned;
- (h) where the order, notice, warning letter or other document or information relates to a maritime site, and the address at which the person ordinarily resides cannot be ascertained by reasonable inquiry, by publishing it in a national newspaper on 7 consecutive days.
- (2) Service shall be effected in accordance with *paragraph (b) of subsection (1)* where—
- (a) the electronic communication is sent to—
- (i) an email address or other electronic contact point provided by or on behalf of the person to be served, or
- (ii) an email address or other electronic contact point published or otherwise communicated to the public by the person to be served,
- (b) the person serving the order, notice, warning letter or other document or information has not within a reasonable time thereafter received reliable evidence that the electronic communication has not been delivered to the email address or other electronic contact point concerned, and

- (3) The Minister may prescribe requirements additional to those in *subsection (2)* for electronic communication for the purposes of this section.
- (4) Where an order, notice, warning letter or other document or information is required or authorised by or under this Act to be served on the owner or occupier of any land, maritime site or structure and the name of the owner or occupier cannot be ascertained by reasonable inquiry, it may be addressed to “the owner” or “the occupier”, as the case may require, without naming him or her.
- (5) For the purposes of this section, a company registered under the Companies Act 2014, shall be deemed to be ordinarily resident at its registered office, and every other body corporate and every unincorporated body shall be deemed to be ordinarily resident at its principal office or place of business, or at any address provided or published by it for the purpose of receiving communications.
- (6) In this section “serve” or “serve on” includes “give” and “notify” or “give to” and “notify to”.

Presumption of service of owner or occupier

397. (1) Where a provision of this Act—

- (a) requires the service by a planning authority or the Commission of a notice or other document on the owner of land or a maritime site, or
- (b) otherwise confers a power on a planning authority or the Commission to serve a notice or other document on the owner of land or a maritime site,

then it shall be presumed (including in any subsequent criminal or civil proceedings under this Act before a court), unless the contrary is shown, that, where service of such notice or document was effected on any person whom the planning authority or Commission, as may be appropriate, reasonably believed to be the owner of the land or maritime site concerned, that person was the owner of that land or maritime site.

(2) Where a provision of this Act—

- (a) requires the service by a planning authority or the Commission of a notice or other document on the occupier of land or a maritime site, or
- (b) otherwise confers a power on a planning authority or the Commission to serve a notice or other document on the occupier of land or a maritime site,

then it shall be presumed (including in any subsequent criminal or civil proceedings under this Act before a court), unless the contrary is shown, that, where service of such notice or document was effected on any person whom the planning authority or Commission, as may be appropriate, reasonably believed to be the occupier of the land or maritime site concerned, that person was the occupier of that land or maritime site.

Failure to effect service

398. Where a provision of this Act requires the service by a planning authority or the Commission of a notice or other document on the owner or occupier of land or a maritime site as a precondition of the performance by the planning authority or the Commission, as the case may be, of any other function under this Act in relation to that land or maritime site or any other land or maritime site, the failure to effect such service shall not of itself operate to preclude or invalidate the performance of that function unless—

- (a) the planning authority or Commission failed to make reasonable efforts to effect such service, or
- (b) the failure prejudices the exercise by the said owner or occupier of his or her rights under or in connection with this Act.

Dispensation with service or giving of notice

399. (1) Where an appropriate authority, the Office of the Planning Regulator or the Maritime Area Regulatory Authority is satisfied that reasonable grounds exist for dispensing with the serving, giving or notifying by it of an order, notice, warning letter or other document or information required under this Act to be served, given or notified by it,

and that so dispensing will not cause injury or wrong, the appropriate authority, the Office of the Planning Regulator or the Maritime Area Regulatory Authority may dispense with the serving, giving or notifying of it and every such dispensation shall have effect according to the tenor thereof.

- (2) A dispensation under *subsection (1)* may be given either before or after the time when the order, notice, warning letter or other document or information would, but for the dispensation, be required to be served, given or notified and either before or after the doing of any act to which the serving, giving or notification of the order, notice, warning letter or other document or information would, but for the dispensation, be a condition precedent.
- (3) Where a provision of or under this Act requires an order, notice, warning letter or other document or information to be served on, or given or notified to, a person who has made representations or submissions to an appropriate authority, the Office of the Planning Regulator, or the Maritime Area Regulatory Authority, where—
 - (a) a large number of representations or submissions are made as part of an organised campaign, or
 - (b) it is not possible readily to ascertain the full name and address of those persons who made the representations or submissions,

the appropriate authority, the Office of the Planning Regulator or the Maritime Area Regulatory Authority may substitute an alternative means of service, giving or notification that is reasonably likely to bring the order, notice, warning letter or other document or information to the attention of such persons, including, in the case of an organised campaign referred to in *paragraph (a)*, serving the order, notice, warning letter or other document or information on or giving or notifying the order, notice, warning letter or other document or information to (as the case may be), any person who, in the opinion of the appropriate authority, the Office of the Planning Regulator or the Maritime Area Regulatory Authority, as the case may be, organised the campaign.

- (4) Where an order, notice, warning letter or other document or information required to be served on or given or notified to a person under this Act is required to include or be accompanied by information that, by virtue of its size and one or more than one of the factors related to its size referred to in *subsection (5)*, cannot without difficulty be served on, or given or notified to the person (as the case may be) as part of, or with, the order, notice, warning letter or other document or information, the appropriate authority, the Office of the Planning Regulator or the Maritime Area Regulatory Authority may omit parts of the information and inform the person of convenient other means of accessing or viewing that information, which shall include at the offices of the appropriate authority, the Office of the Planning Regulator or the Maritime Area Regulatory Authority or some other public place, and which may include on a website maintained by or on behalf of the appropriate authority, the Office of the Planning Regulator or the Maritime Area Regulatory Authority or some other readily accessible website.
- (5) The factors referred to in *subsection (4)* are:

- (a) the resources required to create copies of the information;
- (b) the number of persons on whom the information is required to be served, or to whom it is required to be given or notified;
- (c) such other factors as the appropriate authority, the Office of the Planning Regulator or the Maritime Area Regulatory Authority serving, giving or notifying the order, notice, warning letter or other document or information considers appropriate.

Public notification

- 400.** (1) Where a provision of or under this Act requires notice to be given in a newspaper circulating in the functional area of a planning authority, the planning authority may, in addition to the requirements of the particular provision and to the extent it considers appropriate, give the notice or draw the attention of the public to the notice through other forms of media including broadcast media and the use of electronic means of communication for the provision of information.
- (2) The Minister may make provision in regulations for the giving of public notice, including—
- (a) the content and layout of newspaper advertisements required under this Act, and
 - (b) such other matters as may be incidental to the giving of public notice under this Act.
- (3) Where this Act requires notice to be given to the public, in respect of a maritime site, by publication in a newspaper and—
- (a) where all or part of the site is located in the nearshore area of a planning authority, and no part of the site is in the outer maritime area, the notice shall be published in a newspaper circulating in the functional area of the planning authority, or
 - (b) where all or part of the site is located in the outer maritime area, the notice shall be published in a national newspaper.

Sale, lease or exchange of land by local authority

- 406.** (1) Subject to *subsection (2)*, any land acquired or appropriated by a local authority under this Act or any other enactment may, subject to such conditions (if any) as the local authority considers appropriate, be sold, leased or exchanged—

 - (ii) conditions (including conditions for the giving of public notice) may be prescribed which must be complied with in order for such disapplication to be effected.
- (4) Capital money arising from the sale, lease or exchange of land under *subsection (1)* shall be applied for—

- (a) to refuse permission, or
 - (b) to grant permission subject to one or more than one condition,
a person with an interest in the land, or the occupier of the land, to which the relevant decision relates shall, where it results, at the date of such decision, in a reduction in the value of such interest or damage to the occupier, as the case may be, on a claim made to the planning authority, be entitled to be paid by the planning authority, by way of compensation, an amount calculated in accordance with *subsection (1) or (2)*, as the case may be, of *section 435*.
- (2) Compensation shall not be payable under *subsection (1)* in respect of the refusal of permission, or the grant of permission subject to one or more than one condition, for any development—
- (a) of a class or description set out in *Part 1 of Schedule 3*,
 - (b) in the case of the refusal of permission, where the reason, or one or more than one of the reasons, for such refusal is a reason set out in *Part 1 of Schedule 4*,
 - (c) in the case of the refusal of permission, where such refusal is based on any change of the zoning of any land as a result of—
 - (i) the making of a new development plan,
 - (ii) the variation of an existing development plan, or
 - (iii) the preparing, making, amending or revoking of an urban area plan, a priority area plan or a coordinated area plan,
 - (d) in the case of the grant of permission subject to one or more than one condition, such grant being subject to one or more than one condition of a class or description set out in *Part 1 of Schedule 5*,
 - (e) in the case of the refusal of permission or the grant of permission subject to one or more than one condition, such refusal or grant, as the case may be, relating to the retention on land of any unauthorised structure, or

- (2) In the case of the occupier of the land, the amount of compensation payable is the damage (if any) to his or her trade, business or profession carried out on the land.

Claim for compensation

- 436.** (1) Where a claim for compensation is made under *section 434*, it shall be made to the relevant planning authority which determined the application in the first instance or, where the application was made directly to the Commission, to the planning authority within whose functional area the development is situated.

- (2) Where a relevant notice is sent, the planning authority shall be restricted to considerations of proper planning and sustainable development.
- (3) The sending of a relevant notice by a planning authority does not prejudice the entitlement of a planning authority or the Commission to refuse permission for an application for other development identified in the notice.
- (4) A relevant notice shall continue in force for a period of 5 years unless—
- (a) the notice is withdrawn by the planning authority,
 - (b) permission is granted to develop the land to which the notice relates in a manner consistent with the other development identified in the notice, subject to no condition or to one or more than one condition of a class or description set out in *Part 1 of Schedule 5*, or

- (7) A relevant notice shall be annulled where, upon an application for permission to develop the land the subject of the notice in a manner consistent with the other development identified in the notice, the permission is refused or is granted subject to one or more than one condition other than one or more than one condition of a class or description set out in *Part 1 of Schedule 5*.
- (8) No claim for compensation under *section 434* shall lie in relation to a decision to refuse permission or grant permission subject to one or more than one condition following an application for permission to develop the land the subject of the relevant notice in a manner consistent with the other development identified in the notice.

Special provision for structures substantially replacing structures demolished or destroyed by fire, etc.

- 438.** (1) Nothing in this Part, in so far as this Part relates to land, shall prevent compensation being paid—
- (a) in respect of the refusal of permission for the erection of a new structure substantially replacing a structure (other than an unauthorised structure) which has been demolished or destroyed (including by fire) save where it was demolished or destroyed by an unlawful act, of either the owner, or of the occupier with the agreement of the owner, carried out within the 2 years immediately preceding the date of application for permission, or

 - (b) this Part, in so far as this Part relates to land, shall apply in relation to the decision—
 - (i) where it revoked the permission, as they apply in relation to a refusal of permission to develop land, and
 - (ii) where it modified the permission by the imposition of one or more than one condition, as they apply in relation to a grant of permission to develop land subject to one or more than one condition.
- (2) For the purposes of this section, any expenditure reasonably incurred in the preparation of plans for the purposes of any works or upon other similar matters preparatory thereto shall be deemed to be included in the expenditure incurred in carrying out those works but no compensation shall be paid by virtue of this section in respect of any works carried out before the grant of the permission which is revoked or modified, or in respect of any other loss or damage arising out of anything done or omitted to be done before the grant of that permission.

 - (b) any other necessary modifications.

- 440.** If, on a claim made to the planning authority, it is shown that, as a result of the removal or alteration of any structure consequent upon a notice served by it under *section 258*, the value of an interest of any person in the structure existing at the time of the confirmation of the notice is reduced, or that any person having an interest in the structure at that time has suffered damage by being disturbed in his or her enjoyment of the structure, that person shall, subject to the other provisions of this Part, in so far as this Part relates to land, be entitled to be paid by the planning authority by way of compensation the amount

of the reduction in value or the amount of the damage.

Compensation regarding discontinuance of use of land

- 441.** (1) Subject to *subsections (2) and (3)*, if, on a claim made to the planning authority, it is shown that, as a result of the discontinuance or the compliance with one or more than one condition on the continuance of any use of land consequent upon a notice served by it under *section 258*, the value of an interest of any person in the land existing at the time of the confirmation of the notice is reduced, or that any person having an interest in the land at that time has suffered damage by being disturbed in his or her enjoyment of the land, that person shall, subject to the other provisions of this Part, in so far as this Part relates to land, be entitled to be paid by the planning authority by way of compensation the amount of the reduction in value or the amount of the damage.
- (2) No compensation shall be paid under this section in relation to a reduction in value or damage resulting from the imposition of one or more than one condition under *section 258* on the continuance of the use of land, being conditions imposed in order to avoid or reduce serious pollution or the danger of such pollution.
- (3) *Subsection (1)* shall not apply where the use of land is for the exhibition of advertising unless at the time of the discontinuance or compliance, the land has been used for the exhibition of advertising for more than 5 years, whether the use was continuous or intermittent or whether or not, while the land was being so used, advertising was exhibited at the same place on the land.

- (b) as a result of complying with a notice under *section 339*, the value of an interest of any person in the land existing at the time of the notice has been reduced, or that any person, having an interest in the land at the time, has suffered damage by being disturbed in his or her enjoyment of the structure or other land,

that person shall be paid by the planning authority, by way of compensation, a sum equal to the amount of the reduction in value or a sum in respect of the damage suffered.

Compensation regarding cables, wires and pipelines

443. If, on a claim made to the planning authority, it is shown that, as a result of a planning authority exercising its powers pursuant to *section 275* and the rights and obligations arising therefrom, the value of an interest of any person in the land existing at the time of the action of the planning authority is reduced, or that any person having an interest in the land at that time has suffered damage by being disturbed in his or her enjoyment of the land or structure, that person shall, subject to the other provisions of this Part, in so far as this Part relates to land, be entitled to be paid by the planning authority by way of

compensation the amount of the reduction in value or the amount of the damage.

- (2) Particulars of a statement under this section prepared by a planning authority or the Commission shall be entered in the register not later than 2 weeks after the day on which the statement is prepared.

- (2) This section applies to any development (other than exempted development), except that—
 - (a) this section shall not apply to any development by virtue of a permission to develop land granted subject to one or more than one condition other than a condition of a class or description set out in *Part 1 of Schedule 5*, and
 - (b) in a case where the compensation specified in the statement became payable in respect of the imposition of one or more than one condition on the granting of permission to develop land, this section shall not apply to the development for which that permission was granted.
 - (3) Subject to *subsection (4)*, the amount recoverable under this section in respect of the compensation specified in a compensation statement—
 - (a) if the land on which the development is to be carried out (in this section referred to as the “development area”) is identical with, or includes (with other land), the whole of the land comprised in the compensation statement, shall be the amount of compensation specified in that statement, or
 - (b) if the development area forms part of the land comprised in the compensation statement, or includes part of that land together with other land not comprised in that statement, shall be so much of the amount of compensation specified in that statement as is attributable to land comprised in that statement and falling within the development area.
 - (4) The attribution of compensation under *paragraph (b) of subsection (3)* shall be in accordance with the following—
 - (a) the planning authority shall (if it appears to it to be practicable to do so) apportion the amount of the compensation between the different parts of the land, according to the way in which those parts appear to it to be differently affected by the refusal of permission or grant of permission subject to one or more than one condition,

- (b) if no apportionment is made, the amount of the compensation shall be treated as distributed rateably according to area over the land to which the statement relates,
 - (c) if an apportionment is made, the compensation shall be treated as distributed in accordance with that apportionment, as between the different parts of the land by reference to which the apportionment is made, and so much of the compensation as, in accordance with the apportionment, is attributed to a part of the land shall be treated as distributed rateably according to area over that part of the land, and

- (a) shall be so payable, either as a single capital payment or as a series of instalments of capital and interest combined (the interest being determined at the same rate as for a judgment debt), or as a series of other annual or periodical payments, of such amounts, and payable at such times, as the planning authority may direct, after taking into account any representations made by the person by whom the development is to be carried out, and
 - (b) except where the amount is payable as a single capital payment, shall be secured by that person in such manner (whether by mortgage loan, covenant or otherwise) as the planning authority may direct.
- (7) If any person initiates any development to which this section applies in contravention of *subsection (1)*, the planning authority may serve a notice upon him or her specifying the amount appearing to it to be the amount recoverable under this section in respect of the compensation in question and requiring him or her to pay that amount to the planning authority within such period, not being less than 12 weeks after the service of the notice, as may be specified in the notice, and, in default of the amount being paid to the planning authority within the period specified in the notice, it shall be recoverable as a simple contract debt in any court of competent jurisdiction.

Restriction on assignment

- 453.** A person shall not be entitled to assign to any other person all or any part of any prospective compensation under this Part, in so far as this Part relates to land, and every purported assignment or promise, express or implied, to pay any other person any money in respect of any such compensation is void.

- (a) of the amendment to which *subsection (1)* relates, and
 - (b) of any alternative amendment it is considering and to which *paragraph (b) of subsection (4)* relates,
- are such that, if the amendment were to be made, it would be likely to have significant effects on the environment (within the meaning of Annex II of the Strategic Environmental Assessment Directive) or on a European site and, for that purpose, the Commission shall have reached a final decision as to what is the extent and character of any alternative amendment, the making of which it is also considering.
- (6) If the Commission determines that the making of either kind of amendment referred to in *paragraph (b) of subsection (4)*—
- (a) is not likely to have significant effects on the environment (within the meaning of Annex II of the Strategic Environmental Assessment Directive) or on a European site, it shall proceed to make a determination under *paragraph (b) of subsection (4)*, or
 - (b) is likely to have significant effects on the environment (within the meaning of Annex II of the Strategic Environmental Assessment Directive) or on a European site, then it shall require the planning authority to undertake a strategic environmental assessment or an appropriate assessment or both such assessments, as the case may be, in relation to the making of the proposed amendment or alternative amendment.

 - (a) an existing deficiency in the provision of water supplies or sewerage facilities,
 - (b) the capacity of existing or prospective water supplies or sewerage facilities being required for prospective development as regards which a grant of a permission under *Part 4* or Part III of the Act of 2000, or a notice under section 13 of the Act of 1990, section 192 of the Act of 2000 or *section 437* exists,
 - (c) the capacity of existing or prospective water supplies or sewerage facilities being required for the prospective development of another part of the functional area of the planning authority, as indicated in the development plan,
 - (d) the capacity of existing or prospective water supplies or sewerage facilities being required for any other prospective development or for any development objective, as indicated in the development plan,
 - (e) any existing deficiency in the road network serving the area of the proposed development, including considerations of capacity, width, alignment, or the surface or structural condition of the pavement, which would render that network, or any part of it, unsuitable to carry the increased road traffic likely to result from the development,
 - (f) any prospective deficiency (including the considerations specified in *clause (e)*) in the road network serving the area of the proposed development which—
 - (i) would arise because of the increased road traffic likely to result from that development and from prospective development as regards which a grant of permission under *Part 4* or Part III of the Act of 2000, or a notice under section 13 of the Act of 1990, section 192 of the Act of 2000 or *section 437* exists, or

PART 1

1. The reduction in value shall, subject to the other provisions of this Part, be determined by reference to the difference between the antecedent and subsequent values of the land, where—
 - (a) the antecedent value of the land is the amount which the land, if sold in the open market by a willing seller immediately prior to the relevant decision under *Part 4* (and assuming that the relevant application for permission had not been made), might have been expected to realise, and
 - (b) the subsequent value of the land is the amount which the land, if sold in the open market by a willing seller immediately after that decision, might be expected to realise.
2. (1) In determining the antecedent value and subsequent value of the land for the purposes of *paragraph 1*—
 - (a) regard shall be had to—
 - (i) in the case of the subsequent value of the land, any contribution which a planning authority might have required or might require as a condition precedent to development of the land,
 - (ii) any restriction on the development of the land which, without conferring a right to compensation, could have been or could be imposed under any Act or under any order, regulations, rule or bye-law made under any Act,

 - (iv) the open market value of comparable land, if any, in the vicinity of the land whose values are being determined,
 - (b) no account shall be taken of—
 - (i) any part of the value of the land attributable to subsidies or grants available from public moneys, or to any tax or rating allowances in respect of development, from which development of the land might benefit,
 - (ii) the special suitability or adaptability of the land for any purpose if that purpose is a purpose to which it could be applied only in pursuance of statutory powers, or for which there is no market apart from the special needs of a particular purchaser or the requirements of any statutory

body, provided that any *bona fide* offer for the purchase of the land which may be brought to the notice of the arbitrator shall be taken into consideration,

- (iii) any increase in the value of land attributable to the use thereof or of any structure thereon in a manner which could be restrained by any court, or is contrary to law, or detrimental to the health of the inmates of the structure, or to public health or safety, or to the environment,
